

RendezVous Evaluation Meeting (17 Aug. 2021; 9pm EDT)

Present:

Anson Wong

Christopher Lung

Joseph Chan

MeeKee Poon

Feedback on Conference

NA/Europe side - No feedback from delegates.

Only 3 joined, and 1 left before worship started.

The 2 stayed until the interview part was done.

Interview was good, and insightful.

Worship - Good preparation, but hard to engage in as it's a recording

Asia Pacific side - Good feedback on interview.

French Guinea delegates are glad that this is online as they would not have been able to join otherwise.

Feedback on Planning

All in all, considering all the different things that happened, it was not bad. It was not easy to work with everyone online when most of us have never worked together before.

Too many committee members going in and out for different reasons which made it harder.

Future Conference Concern:

Attractiveness to 2nd, 3rd, etc gen Chinese. They may no longer identify themselves as Chinese and not wanting to attend a Chinese conference

Would language be a barrier when Chinese is no longer a common language?

Suggestion for Future Conference

Better usage of social media to generate noise.

Have something between RendezVous to remind people of it

For future Rendezvous, maybe a hybrid model, part online (Track A) and then Track B, make it a regional RendezVou

Apart from having a committee member being from an assigned role because of their job, but also have at least 1 person from the same region as a volunteer who have the same mission in mind.

Follow up Item:

Follow up with delegates who failed to attend and try to see what happened. Possible way is to email everyone and ask to see if they have any questions from the sermon video since Dan is still willing to answer questions. We will just ask why they did not show up as well.
